

2004 Substance Use and School Climate Survey Regional Summary

This survey was administered in the fall of 2004 to students throughout Idaho. The students completed the survey anonymously and participation was voluntary.

In each column of this report, the percentage of students who selected each response to each question is summed for the Region indicated at the specified grade. The last column indicates the percent of students who selected each response summed for the entire state at the specified grade. Percentages are rounded and in some cases may not sum to 100%.

First note the three scales below. Students are rated on overall use based on their answers to several items.
If students from this Region and grade in selected sample schools participated in the survey in 2002, 2002 data is also included.

**2004 Drug Use: Levels are based on the frequency of drug use, the type of drug consumed, and the number of drugs consumed.
High use includes daily use of marijuana or weekly use of cocaine.**

Grade 6	Region 1	Region 2	Region 3	Region 4	Region 5	Region 6	State

18. Please mark how often you use each of the following types of drug. Select one of the following answers:

NEVER - never used in my lifetime

SOME - used at least once in my lifetime

MONTHLY - used about once a month (or at least 6 times) in the last 12 months

WEEKLY - used about once a week (or at least 3 times) in the last 30 days

DAILY - used about every day (or at least 5 times a week) in the last 30 days
